PRESS RELEASE

Boulogne-Billancourt, 30 January 2024

ENERGISME to attend the MidCap Event Frankfurt on 8 February

ENERGISME (FR0013399359 - Mnemonic ALNRG), a leading provider of SaaS solutions to optimise energy consumption and reduce the carbon footprint of large companies and public authorities, announces its participation in the MidCap Event to be held in Frankfurt on 8 February.

MidCap Event, which operates on the Paris, London, Frankfurt, Geneva and Amsterdam stock exchanges, puts European issuers in touch with institutional investors and European family offices.

These events offer companies a platform for meeting new investors and attracting their interest.

"As we open a new chapter in our history, we are determined to recreate a dialogue with both individual and institutional investors. Our participation in the MidCap Event in Frankfurt will enable us to meet German investors directly and raise the profile of Energisme. The trade fair will be an opportunity to present - in one-to-one or group meetings - our development plan, through our commercial and technological advances, and to answer all their questions, in line with the actions already undertaken with individual investors. We want to proactively meet, speak and attract new shareholders," says Sébastien Martin, Chief Executive Officer of Energisme.

About Energisme

Energisme, a French GreenTech pioneer, integrates the power of AI into its SaaS solutions to optimise energy consumption and reduce the carbon footprint of large companies and local authorities. By reducing energy consumption, let's build a greener future together.

ENERGISME (ISIN code: FR0013399359/ Mnemonic: ALNRG) has been listed on Euronext Growth since July 2020. Energisme is a PEA-PME-eligible company, and is also a BPI Innovative Company.
